

Resettable Manual Call Point

The Resettable Call Point is a unique manual call point that mimics the feel of breaking glass whilst offering the user the benefits and environmental advantages of a re-settable operating element.

The 'ReSet' uses a simple yet ingenious patented mechanism which consists of a rigid plastic operating element and an over centre spring mechanism. This arrangement provides real action on operation and simulates break glass activation.

An activation indicator drops into view at the top of the window after the 'ReSet' has been operated. The unit is then simply reset with a key and is ready for re-use straight away.

Applications

The 'ReSet' call point is compatible with most conventional fire alarm systems. It is safe for use in areas where glass cannot be used, e.g. food processing plants and swimming/leisure centres.

As the unit can be simply reset it provides an ideal solution for areas that suffer from a high number of false activations such as schools, shopping centres and other public places.

Features

- EN54-11 Approved
- Glass appearance maintains operator deterrence
- Positive activation that mimics the feel of breaking glass
- Visible warning flag confirms activation
- Simple key to reset operating element - no broken glass
- No glass elements to break, loose or incorrectly fit during installation
- Complete functional test with every activation
- Extremely attractive, high value look and feel
- Low profile, heavy duty terminations - Two built-in resistor values
- Available in Red and Yellow

Specification

Current Rating	3 Amps 12-24V _{DC}
Built-in Resistor Values	470Ω (R1) and 680Ω (R2)
Housing and Mounting Box Material	Polycarbonate
Electrical Contact Material	Silver Plated Brass
Operating Temperature	-20°C to +65°C
Installation Terminal Conductor Size	0.5mm - 2.5mm
Colours	Red and Yellow
Mounting	Flush or surface with back box
Approvals/Certification	EN54-11 Approved

Order Codes and Options

08-RP-RF-01:	Red flush mounted resettable MCP
08-RP-RS-01:	Red surface mounted resettable MCP supplied with wall plate and back box
08-RP-YF-01:	Yellow flush mounted resettable MCP
08-RP-YS-01:	Yellow surface mounted resettable MCP supplied with integral back box
08-RP-RS1-01:	Red surface mounted resettable MCP with integral back box
08-RP-YS1-01:	Yellow surface mounted resettable MCP with integral back box
