

Sonos Universal Base Sounder

The Sonos Universal Base Sounder is a low profile sounder designed to comply with EN54.

Its primary application is to be installed under propriety smoke and heat detectors to provide both detection and alarm at the same point, reducing wiring and installation costs. With optional cover, it can also be used as a stand alone sounder.

With a sound output of 95dB, 32 tones and volume control, it is ideal for areas with low ambient noise where it is desirable to fit a larger number of lower output sounders, such as offices and hotel bedrooms.

Features

- Two large cable entries for quick and simple installation
- Keyhole fixing points for ease of installation
- Designed to compliment a variety of detectors
- Volume control for maximum flexibility - 20dB
- 32 Distinct alarm tones
- Cover plate (08-18-980560) available to use as sounder only
- LPCB and VDS approved

Specification

IP Rating	Indoor
Rating	Continuous
