Local Zone Annunciator Enclosures

Often fire alarm applications call for LED type annunciation, and in some cases, control functionality located remotely from the fire alarm control panel. In these circumstances, it is essential that the annunciator is fully supervised, adequately protected in a locked enclosure and be attractive in appearance. With these requirements in mind, Advanced developed its AX-LZA-CAB series of enclosures.

The AX-LZA-CAB series enclosures provide superior flexibility and customization to an Axis AX Series Intelligent Fire Alarm Control Panel installation, the enclosures (AX-LZA-CAB1, AX-LZA-CAB2 and AX-LZA-CAB4) provide for remote usage of Advanced switch LED modules, AX-ASW-16, AX-I/O-48, AX-LED16RY, AX-LED32R, and AX-LED32Y. Available in four (4) configurations, cabinet styles 1 and 2, and four (4) model types for gray and red color, the AX-LZA-CAB series enclosures can accommodate any remote LED annunciation and/or control requirement.

The AX-LZA-CAB1 Local Zone Annunciator Enclosure is designed to hold a single Advanced switch LED module.

The AX-LZA-CAB2 Local Zone Annunciator Enclosure is designed to hold up to two Advanced switch LED modules. Within this enclosure, modules can be mixed and matched to suit the installation application.

The AX-LZA-CAB4 Local Zone Annunciator Enclosure is designed to hold up to four Advanced switch LED modules. Within this enclosure, modules can be mixed and matched to suit the installation application.

The AX-LZA-CAB1, AX-LZA-CAB2 and AX-LZA-CAB4 enclosures are designed to be surface or semi-flush mounted with optional trimming (AX-LZA-CAB1-TR, AX-LZA-CAB2- TR or AX-LZA-CAB4- TR). The enclosures can also be mounted to a 4” double gang electrical box.

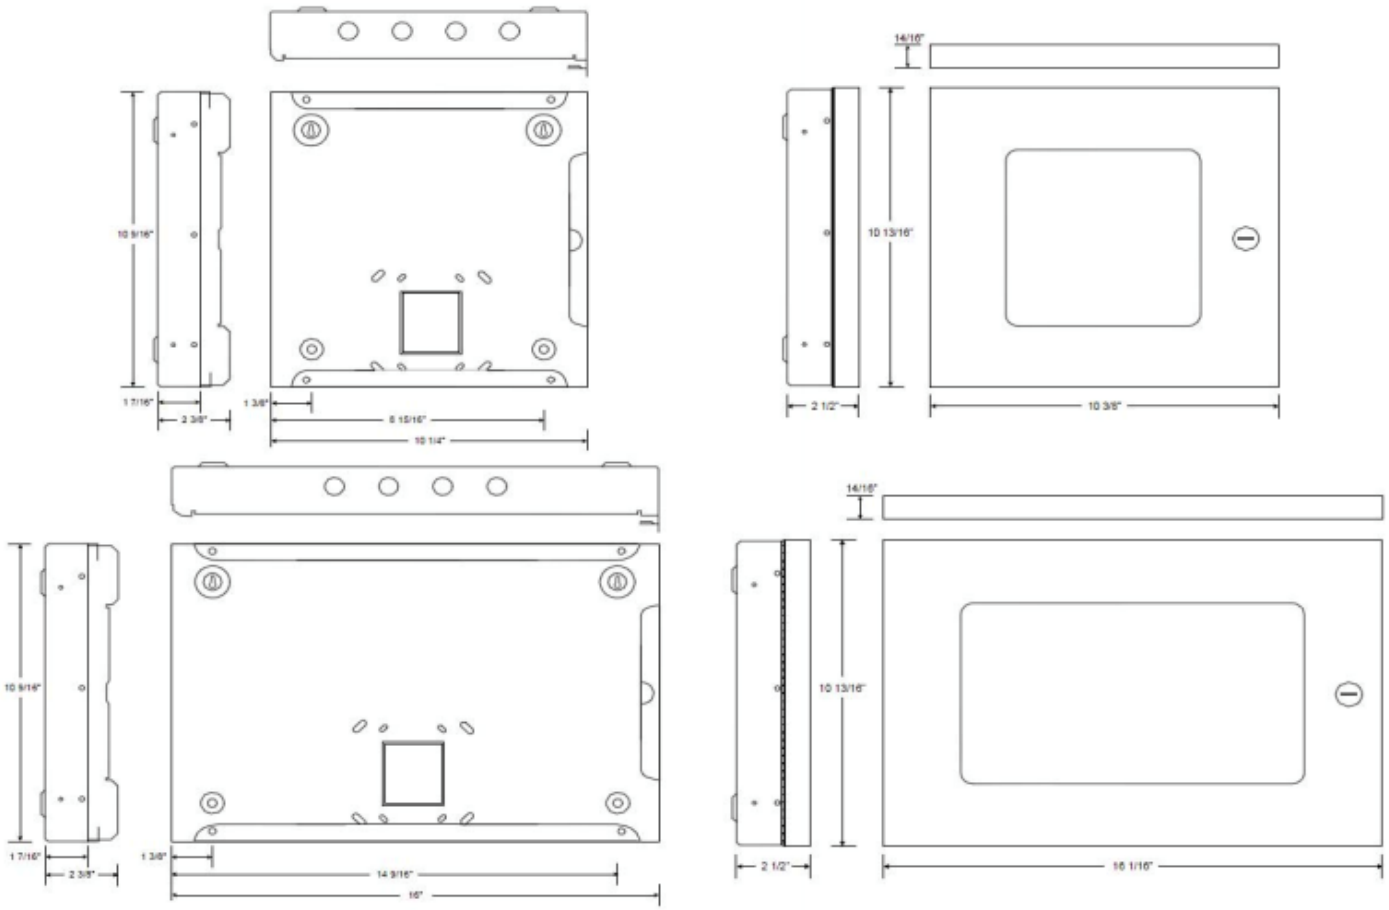

Features

- Compact, Attractive Appearance
- Keyed (CAT30) to match Axis AX Series FACP
- Designed for Remote System Annunciation & Control
- Locked Hinged Front Door Access
- Easy to Install
- Surface or Semi-Flush Mounting
- 16 Gauge Steel Construction
- Available in Red or Gray Color
- Four (4) 5/8” Knockouts
- Optional 4” Double Gang Electrical Box Mounting

Listings and Approvals

- Certified to UL864 10th Edition – File No. S35979

Axis AX

Battery Enclosure

The AX-BAT, Battery Enclosure, is designed to accommodate up to 40Ah batteries to support the Advanced Axis AX Series Intelligent Fire Alarm Control Panels. In addition, an optional battery tray can be added to support multiple sets of batteries.

Note: The battery charging output of the Axis AX Series Intelligent Fire Alarm Control Panels (via AX-CTL Base Card and AX-PSU-6 power supplies) is temperature compensated to maintain the optimum charging voltage in accordance with the manufacturer's specifications. Housing the batteries in the external enclosure could lead to the batteries being charged at an incorrect voltage – to avoid this, ensure that the external battery enclosure is installed in an area with an equivalent environment to the installed location of the Axis AX Intelligent Fire Alarm Control Panel.

Features

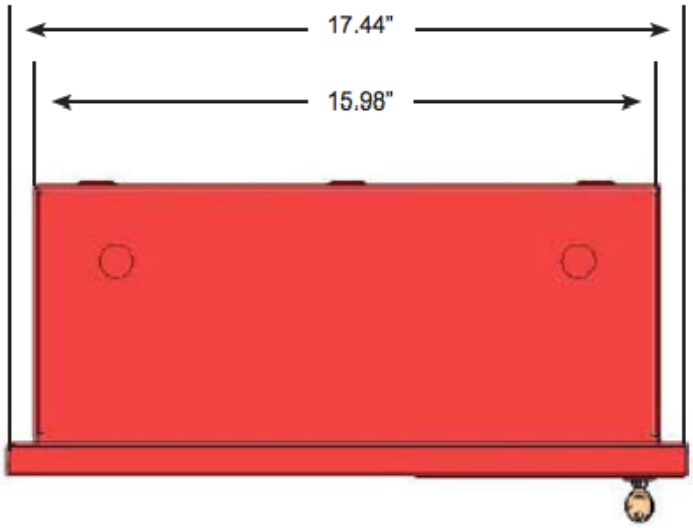

- Accommodates up to 40Ah Batteries
- CAT30 Keyed to match Axis AX FACP & Pull Stations
- Surface or Semi-Flush Mounting
- Integral Battery Retaining Strap
- 16 Gauge Steel Construction
- Easy to Install
- Available in Red or Gray Color
- Two 3/4” Knockouts
- Optional Battery Tray

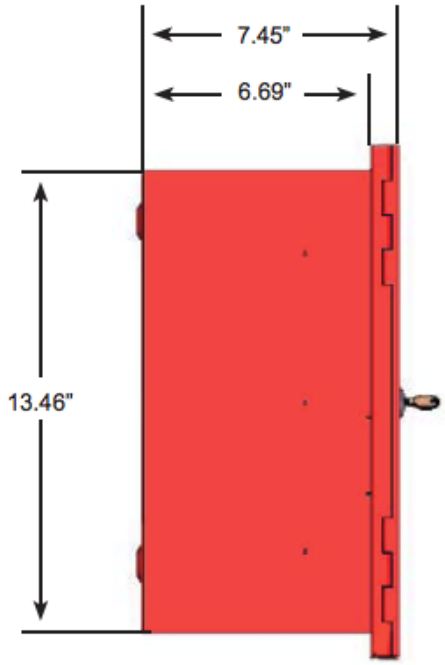

Listings and Approvals

- Certified to UL864 10th Edition – File No. S35979
- CSFM Approved: Pending
- NYCFD COA: Pending

Specification

Dimensions	15“ H x 17½“ W x 7½“ D
Weight	20 lbs
Knockouts (2)	¾“ (Two at the top of the enclosure)
Enclosure	16 AWG Zintec Sheet Steel
